The conference is a great chance for:

- Young researchers, academics and industrial people to meet and discuss their research achievements in the different aspect of Math, Physics, Chemistry, Geology, Botany & Microbiology and Zoology & Entomology.
- It is an integral part of the scientific program consisting of lectures, tutorials, podium discussions and poster session.
- The three days program will consist of plenary lectures, given by invited international speakers, and parallel sessions of oral communications and poster sessions in the different research fields.
- Models of Applied Projects already implemented by Young Graduates will be presented.
