

Assiut University

Faculty of Physical Education

Internal Bylaw of Faculty Of Physical Education

SUPREME COUNCIL OF UNIVERSITY

Secretary Office

Prof./ Mohamed Ibrahim Abdel Qader

President of Assiut University

After Compliments,

It please me to send you a copy of the ministerial resolution No. (1917) on 12- 09- 2004 concerning the issuance of an internal bylaw for the faculty of Physical Education (boys-girls) – Assiut University.

You are kindly requested to be informed

Best Regards

Signature of

Council Secretary

Prof./ Abdallah Barakat

**Arab Republic of Egypt
Ministry of Higher Education and Scientific Education**

**Ministerial Resolution
No. (1917) on 12- 09- 2004
As for the issuance of an internal bylaw
For Faculty of Physical Education
(Boy- Girls), Assiut University**

- Having reviewed law No. 49 year 1972 of Universities Organization and its amendments.
- According to the presidential resolution No. 809 year 1975 regarding the issuance of the executive bylaw of universities organization law and its amending resolution.
- According to the ministerial resolution no. 930 on 25- 09- 1984 regarding the issuance of the internal bylaw of Faculty of Physical Education – Assiut University and its amending resolutions.
- According to the approval of Assiut University council on 23- 03- 2004 and 25- 07- 2004.
- According to the approval of the Physical Education sector on 26- 06- 2004 and 29- 07- 2004.
- According to the resolution of supreme council of Universities on 9, 10 – 09 – 1998 as regards the delegation of the Minister of Higher Education and Research (The Head of the Supreme council of universities in approving the issuance of internal bylaws and their amendments of Faculties and Higher institutes after the approval of academic educational committees.

The Minister of Higher Education and Research decided the following:

(Article I)

The enclosed internal bylaw of the Faculty of Physical Education be effective and any other contradicting terms are considered void.

(Article II)

All authorities concerned are to implement this resolution

Minister of Higher Education and Research

Introduction:

The study at the Faculty of Physical Education started in the academic year 1980 / 1981 as a section of Faculty of Education – Assiut University and the ministerial resolution No. (930), on 25- 09- 1984 was issued to approve the internal bylaw of Faculty of Physical Education – Assiut University. Since that time, the faculty has been in continuous development, and the number of faculty members has become greater as well as other facilities such as constructions, sports equipment, academic and administrative buildings in a limited period of time and in the framework of a dynamic strategy adopted by Assiut University to upgrade the curricula, developing the education and research process to cope with recent improvements and advancements.

After 23 years from its establishment, the Faculty of Physical Education is now coping with current improvements and introduces its first updates of the curricula in the fields of Physical and athletic education and aspires for promising future for its graduates to be as responsible in the fields of teaching, training and managing of Physical Education in the various institutions. In this consideration the administration adopts modern development inputs to guarantee the continuity of this faculty in as development and dynamic to cope with educational variables and recent advancements such as adding new Majors, preparing qualified cadres able to fit in the labor market through three sections represented in teaching, training or managing sports activities. In addition to this, the administration generate new Majors to post graduate studies to meet community needs.

The new bylaw of undergraduate and post graduate studies provides the required impartment which we aspire to accomplish the set objectives in order realize the hopes of our country represented in preparing distinguished cadres capable of creation.

Chapter One

Aims of the Faculty Depts., Scientific Degree and Diplomas.

Item (1):

The Faculty Mission:

Preparing graduates who have cultural, social and Physical abilities and acquainted with the basic theories and applications to cope with their responsibilities and roles in serving citizens in Educational and cultural institutions. The faculty mission also extends to elevate the professional and scientific level of those who work in the Physical Education field through higher studies programs and the specialized training courses.

Item (2):

Aims of the Faculty:

1. Preparing a Physical Education Teacher.
2. preparing a Physical training for Physical – activities.
3. Preparing a specialist in the fields of physical management.
4. Preparing faculty members, specialized researches and experts in Physical field.
5. Performing research and scientific studies in different fields of Physical Education which contribute to community and environment development.
6. Improving the professional and scientific level of those who work in the field of Physical Education to be acquainted with the new Educational trends.
7. Presenting the scientific consultancy to the governmental & non governmental organizations in the fields of Physical Education and co-corporation in studying athletic issue to achieve the common aims which contribute in developing Physical Education.
8. Ex-changing experiences and data with Egyptian, Arabic and International cultural & organizations & Educational institutions to handle the common athletic issues.

Item (3):

Scientific Depts. In the Faculty:

The Faculty Includes the following Scientific Depts.:

1. Physical Education Methodology Dept. (curricula & teaching) dept.
2. Athletic training & kinetic science dept.
3. Physical Management & recreation dept.
4. Athletic hygiene science dept.
5. Educational & Psychological Athletic science department.

Item (4):

- **Curricula of the scientific departments in the faculty:**

1. Methodology Dept.

Principles of teaching- Basics of Physical Education Curricula- Methods of teaching Physical Education- Physical Education programs & camps- Special aids & athletic devices- Basics of evaluation in Physical Education field- Curricula of Physical Education- Scientific research & problems of school sport- kinetic learning- Curricula of scout- Teaching of collective games- Teaching of individual sports- skills of teaching & internal practical training- Field training of school sport kinetic education- Basics of football- Basics of exercises- Basics of volleyball- Basics of bats games- Basics of handball- Basics of basketball- Basics of hockey- Methodical organizations of Physical Education- Teaching possibilities- Kinetic Education programs- Methods of teaching and training scouts- Arts of scout- scout leader- Possibilities and scout camps- Sport for all programs- Strategies of teaching- Seminars about school sport- Analyzing the curricula of Physical Education- Oriented readings- The professional preparation for Physical Education teacher- Supervision & orientation of Physical Education- Evaluation of Physical Education Methodology- Analyzing of Physical Education teacher's Guido.

2. Athletic Training and kinetic science Dept.:

Principles of kinetics- Principles of athletic training- Principles of kinetic analyzing- Principles of beginners' training- athletic training- Kinetics- Physical fitness- Training of collective games- Training of individual sports- Training skills & internal practical education- Planning of athletic training field training of athletic training- Scientific research & problems of athletic training- Evaluation of athletic training- Vital mechanics- Basics of the field competitions- Basics of the track competitions- Basics of fencing- Basics of wrestling- Scientific basics of athletic training- Kinetic analyzing- Specialized studies & applications- Athletic training programs- Physical preparation & loads determination programs- Seminars about Physical Training and kinetic science- Oriented readings- Mechanical analyzing of kinetic performance- Professional preparation of athletic trainer.

3. Athletic Management & Recreation Dept.:

Introduction to athletic management- Principles of athletic recreation -management of athletic tournaments championships- Leadership in athletic field- Scientific basics of athletic management- Managing of sports institutions- Managing & arbitration of group games- Managing & arbitration of individual games- Skills of management & internal

practical education- Field training of athletic management- Sport marketing- Camps management- Scientific research and problems of athletic management- Athletic organization recreation and spare times- Administrative development in athletic field- Organizing laws & bylaws of sport and youth organizations- Sport media & public relations- Basics of kinetic rhythm- Basics of rhythmic gymnastic- Basics of swimming basics of weight lifting- Basics of kinetic expression- Kinetic expression organizing laws & bylaws for scouts- Economy and basics of marketing in the athletic field- Publicity & media in the athletic field- Facility studies of the athletic projects- Financial & Administrative bylaws of athletic organizations- Administrative communication- Business administration in the athletic field- Rave design- General direction- Kinetic arts- Kinetic rhythm- Critical studies- Managing of athletic shows- Athletic recreation programs- Pioneering in recreation- Seminars about athletic management- Organizational behavior- Sport economies- Oriented readings- Administrative organization & systems analyzing evaluation in athletic administration- Professional preparation of administrator in the athletic field.

4. Athletic Hygiene Science Dept.:

Sport physiology- Functional anatomy- Sport and community health- Injuries & first aids – physical care nutrition for athletic- Hygienic education- athletic rehabilitation- Massage- Sport biology- Scientific research & health problems in the athletic field- Progressive studies in sport physiology- Seminars in the health problems of the athletic field- Oriented readings- Sport morphology- Safety and environment hygiene- physiology & physical effort.

5. Psychological and Educational Athletic Science Dept.:

Philosophy and history of athletic education- Applied statistics introduction to athletic psychology- Athletic psychology- Psychology of training and competition- Athletic sociology- Psychology of athletic groups- Dynamics of athletic groups- Mental hygiene and social adaptation- Guiding psychology for athletic- Case study- Fanaticism and of athletic fields- Therapy systems- Scientific research in education and athletic psychology- Psychological evaluation- Mental hygiene of athletic- Oriented readings- Directing and psychological guiding of athletic- Psychology of kinetic education.

Courses to be taught by scientific departments from other faculties:

Serial	Course	Faculty
1	Descriptive Anatomy.	Medicine
2	Human Physiology.	Medicine
3	Anabolic Steroids in Athletic Field.	Medicine
4	Public Health.	Medicine
5	Public Relations.	Arts
6	English Language.	Arts
7	Statistics.	Sciences
8	Computer.	Computers & Information
9	Comparative Education & Education Systems.	Education
10	Psychological Measurement & Statistics.	Education
11	Human Rights.	Law

Item (5):

The Faculty Council approves the scientific content of each course of the study after being specified by the Department Council. The Faculty Council may modify the scientific content of the courses according to the suggestions of the specialized Departments within the limits of this plan and the articles of this bylaw.

Item (6):

Scientific Degrees & Diplomas:

Upon recommendations of the Faculty of Physical Education Council Assiut University Council grants according to the following Scientific degrees and Diplomas:

First: The Scientific Degrees:

A- The Bachelor's Degree of Physical Education in the following Major:

1. Physical Education Teaching.
2. Athletic Training (in selected athletic activities).
3. Athletic Administration.

B- Master's Degree in Physical Education in one of the Majors of the following Majors:

1. Curricula & methods of teaching Physical Education.
2. Physical Training & kinetic sciences.
3. Science of Athletic Hygiene.
4. Athletic Management and recreation.
5. Athletic Educational & Psychological Sciences.

C- The Ph.D. degree in the following majors of Physical Education:

1. Curricula & methods of teaching Physical Education.
2. Physical Training & kinetic sciences.
3. Science of Athletic Hygiene.
4. Athletic Management and recreation.
5. Athletic Educational & Psychological Sciences.

Second: Diploma:

The General Diploma in one of the following majors of Physical Education:

1. Sports injuries.
2. Scouts the Guides.
3. Sports recreation.
4. Sports marketing.
5. Psychological preparation of sportsman.
6. Sport shows.
7. Physical fitness.
8. School sports.
9. Sport training.

Second Section

Bachelor Degree

Article (7):

Upon recommendation of the faculty of Physical Education Council, Assiut University Council grants the bachelor's degree in one of the following majors:

A- Physical Education Teaching.

B- Sports Training.

C- Sports Administration.

Article (8):

Enrollment requirements for the Bachelor's Degree in Physical Education:

Students applying for enrollment at the Bachelor's Degree in Physical Education should get the general secondary certificate or its equivalent:

- Applicants must pass the admission tests set by the Faculty Council.
- Applicants must pass the medical examination at the destination allocated by Assiut University according to the suggestion of Faculty Council.

Article (9):

A- Study system and its Duration:

The duration of study for the Bachelor's Degree of Physical Education in the majors of (Physical Education Teaching / Sport Training / Sport Administration) is four academic years (8 semesters). The study consists of two semesters (fifteen weeks each).

B- Stage of study:

Study in the bachelor's stage is divided into two stages:

- **The Main Period:** is a general study for the first and second years in which students study the main courses as a preparation to join one of the three majors (Teaching of Physical Education, Sports Training, Sports Administration).
- **The Specialized Period:** is the specialized study for the third and fourth years in which students study the specialized courses according to the majors (Teaching of Physical Education / Sports Training / Sports Administration).

Article (10):**Distribution of students on the specialized majors:**

The students are distributed to the majors according to the regulations of the Faculty Council in the light of the suggestions of the departments' councils.

Article (11):**Field Training:**

1. The faculty council determines the system of students field training according to the demand of department councils in the light of the study plan.
2. The department of curricula and teaching of physical education trains the students of teaching physical education major and supervises their internal and external training at sports and educational institutions.
3. The department of sports training and kinetics supervises the training of sports training students whether the internal training at the faculty or the external training at sports and educational institutions.
4. The department of sports administration and recreation supervises the training of sports administration students in the internal and external training at various institutions.
5. A minimum of 60% of the total score of the course of field training- is a must for students success in this course.
6. In case of a student's failure in the course of field training, even if he/ she passes all the other courses, he is considered failing and must remain for one whole year to take a resit exam.
7. The faculty council sets the regulations related to year works and the final applied exam in field training per each major in the light of the suggestions of department councils.

Article (12):**Camps:**

A- A camp is organized for students of first year for environmental and society service in the fields of Physical Education (sports caravans). The attendance and commitment of students to the camp program is a must for promotion to the second year.

B- A camp is organized for training students of the third year on the skills of forming scout teams leadership and the student's attendance and commitment to the camp program is a must for promotion to the fourth year.

Article (13):

Lectures Attendance:

Each student must attend at least 75% of the practical and theoretical lectures in each course.

Upon the demand of department council and the approval of the faculty council, absent students are forbidden from taking the final exam of the courses in which they do not attend and the student will be considered failing.

If the student justifies his absence with an acceptable excuse to the faculty council, he will be absent with an excuse.

Article (14):

The grades of the Bachelor Degree:

Students are evaluated whether in each course or in the total result according to the following:

- **Excellent:** for students who get 85% and more of the total score.
- **Very Good:** for students who get between 75% and less than 85% of the total score.
- **Good:** for students who get between 65% and less than 75% of the total score.
- **Pass:** for students who get between 50% and less than 65% of the total score.

If a student fails, he will get one of the following grades:

- **Poor:** if the student gets between 30% and less than 50% of the total score.
- **Very Poor:** if the student gets less than 30% of the total score.

Article (15):

- The student will be promoted to the next year during the study stage if he passes all courses or failed in not more than two courses except (English Language).
- The student will not be promoted from basic period to specialized period unless he passes all courses of the basic period.
- In September an annual reset exam is scheduled for students of the basic stage with two failures at most.
- In November, reset exam is scheduled for students of the final stage with two failures at most.

Article (16)

Transitional Rules:

The rules of this bylaw apply to students joining the first year, immediately after this bylaw is approved, while old bylaw remains effective for courses of students of the other years. Cases which do not fall under the details of this bylaw are examined by the faculty council for proper decision.

Article (17):**Codes and numbers of scientific courses****First: Code of Departments and Majors:**

Serial No.	Code	Departments, Sections and Majors
١		Department of methodology and teaching of physical education.
٢		Department of Sports hygiene sciences.
٣		Department of physical training & kinetic.
٤		Department of sports administration and recreation.
٥		Department of sports, psychological and educational sciences.
6		Department of teaching physical education.
7		Department of physical training
8		Department of sports administration.
9		Diploma in sports injures.
10		Diploma in scout.
11		Diploma in sports recreation.
12		Diploma in sports marking.
13		Diploma in sport shows.
14		Diploma in physical fitness.
15		Diploma in school sports.
16		Diploma of sport training
17		Diploma of sport, psychological and educational sciences.
18		Master degree in methodology & teaching of physical education.
19		Master degree in sport hygienic.
20		Master degree in sport training & kinetic sciences.
21		Master degree in sport administration.
22		Master degree in sport psychology.
23		Ph.D. in methodology & teaching of physical education.
24		Ph.D. in sport hygienic sciences.
25		Ph.D. in sport training & kinetic sciences.
26		Ph.D. in sport administration.
27		Ph.D. in sport & psychological & educational sciences

Secondly: Numbering Scientific Courses:

Course number consists of three entries shown as follows:

- Right Entry: serial No. of courses of the semester.
- Middle Entry: No. of the semester in the academic year (1 or 2) No. (3) in the same entry, refers to courses extending for to semesters. Diploma in the same entry is indicated by No. (1).
- Left Entry: Academic level- numbers from (1-4) for B.Sc.
 - No. (5) for diploma.
 - No. (6) for M.D.
 - No. (7) for Ph.D.

Part Three

The courses of the study plan distributed to the study years

Article No. (18):

The following tables show the courses of the final year distributed to the semesters of the fourth years, and the number of hours specified for each course per week for the theoretical, practical and applied lectures, and the minimum and the maximum score throughout the year, written and the practical exams, and exam duration.

The Bachelor's Stage

The student chooses one course from the optional courses that has not been chosen in the fourth year in the optional course Managing and Arbitration of group games of(first and second semester),and has not been chosen in the fourth year(first semester).

The Fourth Section

Post Graduates Studies

First: General Diploma in Physical Education:

Article No. (19)

In March every year, Faculty of Physical Education Council determines the required Major and possibly accepted numbers in those Majors determined by the bylaw and the attached schedule . According to the council suggestions of the Scientific departments.

Article No. (20)

The following conditions should be met to get the general diploma in physical education:

1. The student should get the B.Sc. degree in Physical Education or an equal degree from one of the Egyptian Universities or a reputable scientific institute.
2. The student should devote himself for two days at least to study with a permission from his workplace.
3. The student should apply for registration after the advertisement. The council of the scientific department and the committee of post graduate studies should make a decision before the request is submitted to the faculty council.

Article No. (21)

The study duration of the general diploma in Physical Education is one year (No less than thirty weeks). The attached schedules indicate the study plan, curricula, number of hours, maximum and minimum marks, marks of written and practical exams, year works, and the exam duration for each Major.

Article No. (22)

The Faculty Council determines the content of the curricula according to the recommendation of the councils of the scientific departments. The faculty council has the right to amend the content of the curricula according to the recommendation of the councils of the scientific departments.

Article No. (23)

A percentage of 75% is a must for students to take the exams. The faculty council has the right to deprive the student from the exams in the courses he does not meet the attendance percentage according to the recommendation of the council of the scientific department. In this case, the student will be considered failure in this course, unless he provides an accepted excuse, so that he could be absent with an excuse.

Article No. (24)

The student's success in the courses and the general grades are evaluated as follows:

(Excellent) from 90% and above of the maximum mark.

(Very Good) from 80% to less than 90% of the maximum mark.

(Good) from 70% to less than 80% of the maximum mark.

(Pass) from 60% to less than 70% of the maximum mark.

The student fails; if he gets less than 60% of the maximum score of each course.

(Poor from 50% to less than 60%).

(V. Poor) less than 50%.

Article No. (25)

The exams of the diploma are held twice for all Majors:

One in June in all courses, and one in September of the same year in two subjects only. The student will be examined in the courses in which he failed, and if he does not succeed, he will be examined in those subjects in the following year. The faculty council determines the exam times according to the recommendation of post graduate studies and research council.

Second: Master's Degree in Physical Education:

Article No. (26)

The following conditions should be met for registration in the Master's Degree in Physical Education:

1. The student should be a holder of B.Sc. degree in Physical Education or an equal degree from one of the Egyptian Universities or a reputable scientific institute with a general grade of "Good" at least, or a holder of the diploma of post graduate studies in physical education.

2. The student should apply to be registration after the advertisement . The scientific department council and the post graduate studies committee should give a decision before the request is submitted to the faculty council.
3. The student should devote himself for two days at least to study with a permission from his workplace.
4. Other conditions put by the faculty council select the number of accepted applicants.

Article No. (27)

The following conditions should be met for granting the Master's degree in Physical Education:

1. The student should pass the exams of the first and second years which are indicated in the schedules attached to the bylaw. Article No. (23) must be applied for exam taking .
2. The student should successfully complete an English course according to the rules and level determined by Assiut University as a condition for the Master's thesis defense.
3. After the student successfully passes the exams of the first year, he should register the topic of his Master's thesis after the acceptance of the faculty council and upon recommendation of the council of the scientific department and the committee of post graduate studies.
4. The thesis is defended publicly in front of the arbitration committee after one year (at least) from the date of the faculty council's approval of the topic registration , in condition that the student must have passed the exams of the first and second year of the Master.
5. The student has the right to change the research topic. The date of the faculty council's approval of the research topic is new date of registration.

Article No. (28) :

The student's success in the courses and the general grade in the Master's of Physical Education are evaluated as mentioned in article No. 24

Article No. (29):

The exams of the first and second year of the Master's are held as mentioned in article No. 25.

Article No. (30):

The study duration for the Master's in Physical Education is two years and the student will not be granted the Master's degree unless he succeeds in the first and second year, and his thesis is accepted.

Article No. (31):

The supervisor(s) submit a report every 6 months about the student's progress in his research. They also submit a final report to the council of the scientific department about the validity of the thesis to be submitted to the arbitration committee accompanied by suggestion of the arbitration committee members to submit to the faculty council.

Article No. (32):

The student's registration for the Master's Degree will be cancelled in the following cases:

1. If he is not granted the degree in the course of five years from the date of registration, unless the faculty council decides to extend the period for another year upon recommendation of the supervisor and the approval of the council of the scientific department and the committee of post graduate studies.
2. If the supervisor(s) submit two consequent reports about the student's disinterest in his research, after the recommendation of the department council, the approval of the committee of post graduates studies, and the approval of the acceptance of the faculty council. In this case, the student is formally notified of the cancellation of his registration .
3. If the student doesn't follow his study for two academic years without an accepted excuse. This should be upon the recommendation of the department council and the approval of committee of post graduate studies, and the faculty council. The student is to be formally notified.
4. If the arbitration committee absolutely refuses the thesis.
5. If the student applies a formal request to cancel his registration.
6. If he does not meet the conditions of article No. 27 of this bylaw.

Third: Ph.D. degree in Physical Education:**Article No. (33):**

The following conditions should be met to be registered to get the Ph.D. degree in Physical Education:

1. The student should be a holder of the the Master's degree in Physical Education or an equivalent degree from one of the Egyptian Universities or a reputable scientific institute.

2. The student should be devote for two days (at least with a permission from his workplace.
3. The student should apply for the qualifying exam held by the faculty to be submitted to the department council and the faculty council.
4. The student has to successfully pass the qualifying exam held by the faculty according to the rules set by the faculty council.

Article No. (34):
