Under the patronage of
Prof. Dr. Ahmed Abdo Geies
President of Assiut University
Prof. Dr. Tarek El-Gammal
Vice President for Postgraduates & Research
Prof. Dr. Hassan M. El-Hawary
Dean of Faculty of Science
Conference President
Prof. Dr. Nagwa Th. Abo El-Maali
Vice Dean for Postgraduates & Research
Conference Secretary General and Workshop Organizer
Forensic Science is a broad range of subspecialties which use techniques adapted from the natural sciences to obtain criminal or other legal evidence. Forensic scientists help investigate crimes by collecting and analyzing physical evidence, either at the crime scene or in the lab.

Workshop objectives

1) Acquiring an overview of forensic sciences and different types of forensic evidences that can be recovered at the crime scene or at related locations e.g. Fingerprints and DNA fingerprinting, body fluids, traces of firearms and explosives.

2) How forensic evidence is recognized and analyzed, to offer objective and reliable information about the incident under investigation.

3) Technological advances used to increase the usage of forensic evidences in criminal proceedings.

4) Theoretical background and practical session for human fingerprints identification, suspected blood stain analysis and DNA profiling demonstration.

Workshop presenters

Prof. Ragaa M. Abdelmaaboud & Dr. Ghada Ali Omran
Department of Forensic Medicine and Clinical Toxicology
Faculty of Medicine, Assiut University

Target groups

Chemists, biologists, pharmacists, physicians (undergraduates or postgraduates) and any interested disciplines.

Registration fees

200 L.E

Cash payment on the desk at the Multidisciplinary Research Centre of Excellence, 5th floor, Main Building, Faculty of Science, Assiut University.

Introduction
