Re: Gehan Ibrahim Abdel Razik Salem

Dear Prof. Zaki,

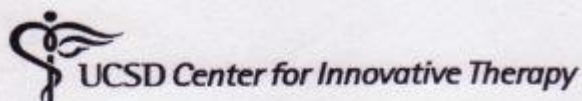

I am writing to provide acknowledgement that Dr. Gehan I. Salem is successfully completing her Post Doctoral Fellow training in the Department of Rheumatology, Allergy and Immunology at the University of California San Diego, USA. Dr Salem arrived here March 23, 2001; her work will continue until her return to Egypt, which is planned to occur in January 2002. Dr Salem has worked hard, and she has learned a great deal concerning the practice of clinical Rheumatology as well as the design, conduct, and interpretation of clinical research studies in Rheumatology. She has also successfully completed the data collection for her thesis. Most recently, she has worked on a project with one of our UCSD Rheumatology fellows evaluating the utility of a new, low-field strength, Magnetic Resonance Imaging machine in patients with arthritis. Dr Salem's efforts are much appreciated, and we hope that scientific presentations and publication will result from this work.

I have been pleased to have Dr Salem here working in our group, and I support her in her future endeavors in Rheumatology. If I can provide additional information, please do not hesitate to contact me.

Sincerely,

Re: Gehan Ibrahim Abdel Razik Salem

To Whom it May Concern,

This letter serves as acknowledgement that Dr. Gehan I. Salem has successfully completed a period of Post Doctoral Fellow training in the Department of Rheumatology, Allergy and Immunology at the University of California San Diego, USA. Dr Salem arrived here and began her post graduate training March 23, 2001; her work finished January 4, 2002. Dr Salem's efforts have concentrated on the design, conduct, and interpretation of clinical research studies in Rheumatology. She has also worked on a project with one of our UCSD Rheumatology fellows evaluating the utility of a new, low-field strength, Magnetic Resonance Imaging machine in patients with arthritis. Dr Salem's efforts and contributions will facilitate scientific presentations and publication of this work.
