

Prof. Ahmad Abd Elhady Elkamel

Title:

- Professor of Aquatic animal medicine and management

Affiliations:

1. Department of Aquatic animal medicine and management, Faculty of Veterinary Medicine, Assiut University
2. Molecular Biology Department, Molecular Biology Research & Studies Institute, Assiut University

Research interest

- Explore fish bacterial pathogenesis and potential virulence factors at the molecular level.
- Explore bacterial genetics and fish immunology and vaccines
- Study the molecular basis of the interaction between the bacteria and the host
- Apply molecular diagnostic techniques to survey fish outbreaks
