

Prof. Dr. Hatem Soliman

Title:

- Full Professor of Fish Diseases and Managements

Affiliations:

1. Department of Aquatic Animal Medicine, Faculty of Veterinary Medicine, Assiut University.
2. Molecular Biology Dept., Molecular Biology Research & Studies Institute, Assiut University.

Research interest

- Application of molecular diagnostic techniques for diagnosis of fish diseases.
- Utilization of molecular tools to develop new assays for diagnosis of fish diseases.
- Application of molecular tools, such as (IVIAT, RNAi & CRISPR/Cas system), to control infectious fish diseases.
