Analysis of cephalosporin antibiotics

S.R. El-Shaboury, G.A. Saleh, F.A. Mohamed, A.H. Rageh

Abstract:

A comprehensive review with 276 references for the analysis of members of an important class of drugs, cephalosporin antibiotics, is presented. The review covers most of the methods described for the analysis of these drugs in pure forms, in different pharmaceutical dosage forms and in biological fluids.

Keywords:

Cephalosporins; Analytical methods; Pharmaceutical analysis; Biological analysis
