

## CURRICULUM VITAE

### **Abeer Mostafa Mostafa Darwish**

South Egypt Cancer Institute, Assiut University, Department of Oncological Clinical  
Pathology Assiut, Egypt

Abeer\_mdarwish@yahoo.com

Tel: 00201003390693, 002(0)882340101,

#### **Areas of Specialization:**

Clinical Pathology, Cytogenetics Molecular Genetics, .

#### **Qualifications:**

**MD Oncological Clinical Pathology-** South Egypt Cancer Institute –Assiut University 2010.

**M.Sc. Clinical Pathology,** Faculty of Medicine, Assiut University 2002

**MBBCh:** Faculty of Medicine, Assiut University, 1995.

#### **Appointments:**

**2010- current: Lecturer**

of Oncological Clinical Pathology, South Egypt Cancer Institute Assiut University, Assiut, Egypt

**2002-2010: Assistant Lecturer**

South Egypt Cancer. Institute Assiut University

**2001-2002: Demonstrator of Clinical Pathology**

South Egypt Cancer Institute Assiut University

**1998-2001: Resident of Clinical Pathology**

Department of Clinical Pathology, South Egypt Cancer Institute & Assiut University Hospital Assiut University

**1997-1998: GP in medical clinics of Ministry of Health , Assiut**

**1996-1997: House officer:**

Faculty of Medicine, Assiut Univ., Egypt.

#### **Languages:**

Arabic/English: Excellent writing, reading and speaking.

#### **Experiences:**

##### ***Techniques Managed: .***

- General clinical pathology techniques
- Cytogenetics & FISH techniques
- Special techniques for cancer diagnosis eg, immunohistochemistry, tumor markers & bone marrow study
- . Good usage of computer packages and statistical software

## **Academic experiences**

### **Co-Supervising of MSc thesis,.**

.Prevalence of malignant disorders in patients with Down Syndrome ( a cytogenetic study),

Immunophenotyping of infantile leukemia.

Fatty acid synthase and phosphatase and tensin homology in pediatric acute lymphoblastic leukemia.

### **Co-Supervising of MD thesis**

Frequency of ALK Gene break apart and its prognostic value in neuroblastoma

.Effect of DAXX and ATRX with alternative lengthening in cancer breast patients

**Teaching: general & special courses of oncological clinical pathology** for postgraduate students (South Egypt Cancer Institute)

### **Courses, Other Scientific & academic Activities**

- Training in Cytogenetic Lab National Cancer Institute Cairo University
- Health & Safety manager in many accreditation projects in South Egypt Cancer Institute
- Member of Research unit in South Egypt Cancer Institute 2013-2014
- Member of Committee for Environmental Affairs and Community Service ,South Egypt Cancer Institute 2013 -current
- Member of Center of Excellence of Medical Faculty of Medicine 2014-current
- Attending the national and international conferences, related to clinical pathology and oncology
- Attending certificated work shops in Health & Safety in medical laboratories ,Quality Control, and Internal Audit

### **ABSTRACTS, PUBLICATIONS, CURRENT PROJECTS**

Effect of vagus nerve stimulation on serum level of pentraxin-3 at focal transient cerebral ischemia and reperfusion in adult male new zeland rabbits: Haym G Sayed, Nagla K Edriss, Salwa I Wasfy, Abeer M Darwish ,Amal T Abou Elghait Assuit Med.J.Vol(35),No(3), September,2011

The EFFECT OF MELATONIN ON PENTRAXIN-3 level and nuclear factor kappa beta immunohistochemical expression on acetic acid induced colitis and their relationship to pathophysiology of the disease: Hyam G Sayed, Nagla K Edris Dalia A El Sers Salwa I Wasfy, Abeer M Darwish , Assuit Med.J, Vol.(36) ,No(1) January 2012

Frequency of ALK gene break apart and its prognostic value in neuroblastoma by FISH. Mohamad Raafat Khalaf , Eman Mousad Zaki, Abeer Mostafa Darwish and Mohamad Galal ElNagar Egyptian journal of hematology. May 2015

**LEARNED SOCIETIES AND COMMITTEE.**

Membership of the Egyptian Society of Hematology.

Membership of the Egyptian Society of Hematology and Research
