References

[1] Assiut University:

- It was inaugurated in 1957 to encourage research, education and community services in Upper Egypt. It is located in Assiut City. The university comprises sixteen faculties and two higher institutions.
- Postal Code No. 71515, Egypt.
- Website: <http://www.aun.edu.eg>

[2] South Egypt Cancer Institute:

- Housed within one of Egypt top research universities, the South Egypt Cancer Institute (SECI) brings together researchers and clinicians dedicated to four fundamental pursuits: basic science research into the causes and events of cancer's progression; clinical research to translate new knowledge into viable treatments; sensitive, state-of-the-art patient care; and programs in epidemiology, prevention, and cancer control. Basic scientists and clinical health care providers work together toward the translation of promising ideas into the creation of new and better treatments for cancer patients everywhere.
