# How to apply in the university?

Come and see what does the faculty of Education offers during AUN's open day or contact the faculty to arrange a visit. Undergraduate admission differs depending on whether you are a high school student or whether you want to transfer from another university to AUN.

It is widely acknowledged that the transition from school to University is significant – the quantity of work, the pace at which material is covered and the conceptual complexity are all greater than students have experienced at school. Our experience has shown that many first-year students can overcome the difficult transition from high school to University by receiving a reduced learning load in their first year and by spreading the curriculum over a four year Period. Visit the Faculty of Education at AUN website to know more about the admission.
