

## قائمة بالأبحاث المنشورة لطلاب الدراسات العليا ماجستير/ دكتوراه

| مكان النشر  | سنة النشر | اسم البحث   | اسم الباحث                            | م |
|---|-----------|---|---------------------------------------|---|
| 2010 2 <sup>nd</sup> international conference on computer technology and development ( ICCTD)2010 | 2010      | Agene selection Approach for classifying diseases based on micro array datasets                           | هشام عبد اللطيف البختي (يمنى الجنسية) | ١ |
| مجلة العلوم الهندسية بكلية الهندسة جامعة أسيوط  | 2010      | Text Mining for Finding and Prediction Genes from Biomedical Documents                                    | عمرو عاطف عبد المجيد                  | ٢ |
| 2010 10 <sup>th</sup> international conference on Intelligent Systems Design And Application      | 2010      | An Ant Colony Optimization Algorithm for the mobile Ad Hoc Network Routing Problem based on AODV Protocol | احمد محمد عبد المنعم                  | ٣ |
| international conference on computer theory and applications( ICCTA)2011                          | 2011      | Tabu search with adaptive search memory for data clustering   | عمرو محمد عبد العزيز                  | ٤ |
| International journal of computing academic research(IJCAR)                                       | 2012      | Performance Evaluation of Exhaustive-Search Equivalent Pattern matching under Chebyshev distance          | محمد يوسف بسيونى مهدي                 | ٥ |
| The fourth International Conference on wireless, mobile network &Applications (WIMoA2012)         | 2012      | Utilizing genetic algorithm in a sink driven, energy Aware routing protocol for wireless sensor networks  | على حسين أحمد بخيت                    | ٦ |
| المؤتمر الدولي الثاني لتطوير تكنولوجيا الحاسبات ICCTD2010   | 2010      | Content – based Image Retrieval Using Combined Features and Weighted Similarity                           | احمد حسنى محمد إبراهيم                | ٧ |
| The Third International Conference of communications Security and Information Assurance(CSIA2012) | 2010      | 1<br>"Poor quality watermark barcodes image Enhancement" .<br>2<br>"Hiding Data in FLv video File         | محمد على عطية ( دكتوراه)              | ٨ |

|   |      |   |  |    |
|---|------|---|--|----|
| 22 <sup>nd</sup> international conference on computer theory and applications( ICCTA)2012             | 2012 | Utilizing support vector machines in mining on line customer reviews                            | مصطفى على محمود                                  | ٩  |
| International journal of computing academic research(IJCAR)2013                                       | 2013 | Augmented Dressed Body system controlled by motion capture data                                 | إسلام طه مرسى الجندي                             | ١٠ |
| international journal of future computer and communications   | 2013 | Projector calibration using passive stereo and triangulation                                    | مصطفى أبو بكر عبد المجيد                         | ١١ |
| international conference on Image Processing  | 2013 | Improved Large- Scale Content – Based Image Retrieval   | عبد الرحمن كامل صديق                             | ١٢ |
| مجلة العلوم الهندسية بكلية الهندسة جامعة أسيوط  | 2010 | Protein Function Annotation Based on Analyzing Hierarchical Go Information                      | هادية محمد محمود رأفت                            | ١٣ |
| The online Journal on Computer Science and Information Technology                                     | 2011 | Design Multiple Path Test Data Generator Based on Meta- Heuristics                              | إسراء فاروق أبو المجد                            | ١٤ |
| 22 <sup>nd</sup> international conference on computer theory and applications( ICCTA)2012             | 2012 | <b>1</b><br>"Parameter Determination of Support Vector Machine Using Scatter Search Approach" . | محمد حميد عوض عفيف ( يمنى الجنسية )<br>(دكتوراه) | ١٥ |
| The first International Conference on Advanced Machine Learning Technologies and Applications (AMLTA) | 2012 | <b>2</b><br>"Support Vector Machines With Weighted Powered Kernels for Data Classification "    |  |    |
| International journal Advanced Research in Artificial Intelligence                                    | 2013 | Memetic Algorithm With Filtering Scheme for The Minimum Weighted Edge Domination Set Problem    | شذى نبيل محمد عبد العزيز ( يمنية الجنسية )       | ١٦ |

المختص ،،

د/تيسير حسن عبد الحميد

(  
القائم بأعمال وكيل الكلية لشئون الدراسات العليا
