أدوات الوصول إلى المعلومات

أدوات الوصول إلى المعلومات

١. إستخدام أدوات الوصول على الويب

٢. فهرس المكتبات

٣. إستخدام المكتبات الرقمية

أدوات الوصول إلى المعلومات

١- إستخدام أدوات الوصول على الويب

– محركات البحث Google, AltaVista, Alltheweb

– محركات البحث العلمية Googlescholar, Google Books

– ما وراء المحركات Dogpile, Vivisimo, Kartoo

– الزواحف المتخصصة Focused Crawler

– Still Research Based

أدوات الوصول إلى المعلومات

• محركات البحث

مميزاتها :

- ١ . المرونة في إستخدام اللغة الطبيعية.
- ٢ . سرعة الحصول على المعلومات.
- ٣ . مجانية لا تحتاج لتكلفة إضافية.

عيوبها:

- ١ . غير موثوق في دقة المعلومات التي نحصل عليها.
- ٢ . كثرة النتائج المسترجعة.
- ٣ . تعرض النتائج مرتبة تبعاً لسياستها الخاصة بدلاً من عرضها حسب صلتها بموضوع البحث.

أدوات الوصول إلى المعلومات

٢- فهارس المكتبات

- تقدم بيانات ببليوجرافية فقط عن أماكن تواجد مصادر المعلومات.
- من أمثلتها الفهرس الموحد للمكتبات الجامعية المصرية - فهرس مكتبة مصر العامة - فهرس مكتبة الاسكندرية - فهرس مكتبة الكونجرس

بيت العود العربي

افتتحت مدرسة الفنون بمكتبة الإسكندرية مؤخراً بيت العود العربي بالإسكندرية تحت إشراف الفنان نصير شمة. ويوفر بيت العود العربي بمكتبة الإسكندرية دروس لتعليم الآلات الشرقية كالعود والقانون والناي والإيقاع، وذلك للطلاب ابتداءً من سن ثماني سنوات. ويهدف البيت إلى تأسيس جيل جديد من العازفين والمدرسين المحترفين وتأسيس أوركسترا شرقية وتدريب صناعة الآلات الموسيقية. ويهتم البيت بشكل خاص بتأهيل جيل من العازفات وذوي الاحتياجات الخاصة. ومن المقرر أن يقدم طلاب بيت العود العربي بالإسكندرية مهرجاناً للموسيقى الشرقية في الإسكندرية بعد أقل من عشرين من الدراسة.

دورة اللامتناهية للمعرفة

Steps for Search Strategy

أساليب البحث عن المعلومات

أساليب البحث عن المعلومات

١. البحث البسيط : بكلمة واحد او جملة.

مثال : Libraies

مثال : Academic Libraries in USA

أساليب البحث عن المعلومات

٢. البحث المركب (البولياني):

A. AND : يؤدي الرابط AND، الذي يقابل بالعربية حرف العطف "و"، إلى تضيق نطاق البحث لتتحدد نتيجته في النتائج التي تحتوي على سائر الكلمات المفتاحية موضوع البحث

أساليب البحث عن المعلومات

B. OR : يؤدي استخدام الرابط OR، الذي يقابل في العربية حرف العطف "أو"، إلى توسيع نطاق البحث، لتشمل النتائج التي تحتوي أياً من الكلمات المفتاحية للبحث.

أساليب البحث عن المعلومات

C. NOT: يستخدم الرابط NOT، الذي يقابل بالعربية "لا" في تضيق نطاق البحث، باستبعاده النتائج التي تحتوي على كلمة أو عبارة معينة.

أساليب البحث عن المعلومات

٣. البحث المعقد

Fields

وهو اختيار حقل محدد للبحث فيه سواء كان العنوان أو المؤلف أو الموضوع وهكذا.

Options

وذلك بتضييق خيارات البحث مثل اختيار النص الكامل أو اختيار مصدر معين للبيانات مثلاً.

نصائح للباحث عن المعلومات

نصائح للباحث عن المعلومات

نصائح للباحث عن المعلومات

١. تحديد المفاهيم الأساسية للبحث
٢. وضع المفاهيم في إطار عام
٣. تحديد المصطلحات الدالة على المفاهيم (إستخدام الأدوات المساعدة)
٤. الربط بين المصطلحات
مثل أدوات البحث البولياني And- or- not.
٥. إجراء بحث عام بأهم المفاهيم
٦. تضيق نطاق البحث او توسعته بناء على النتائج المسترجعة

نصائح للباحث عن المعلومات

٧- عرض النتائج حسب الأداة والهدف
الأداة :

في حالة قواعد بيانات الإستشهادات المرجعية والمستخلصات
يتم التعرف على عدد الإستشهادات بكل مقال والمستخلصات الخاصة
بها.

في حالة قواعد بيانات النصوص الكاملة.
حيث يمكن الحصول على النصوص الكاملة للمصادر
الهدف :

كتابة المراجعات العلمية وإستعراض الدراسات السابقة.
إستخلاص ومقارنة النتائج.
التعرف على الأدوات والمناهج.

نصائح للباحث عن المعلومات

٨- إستخدام أدوات معالجة الإستشهادات مثل برنامج Endnote

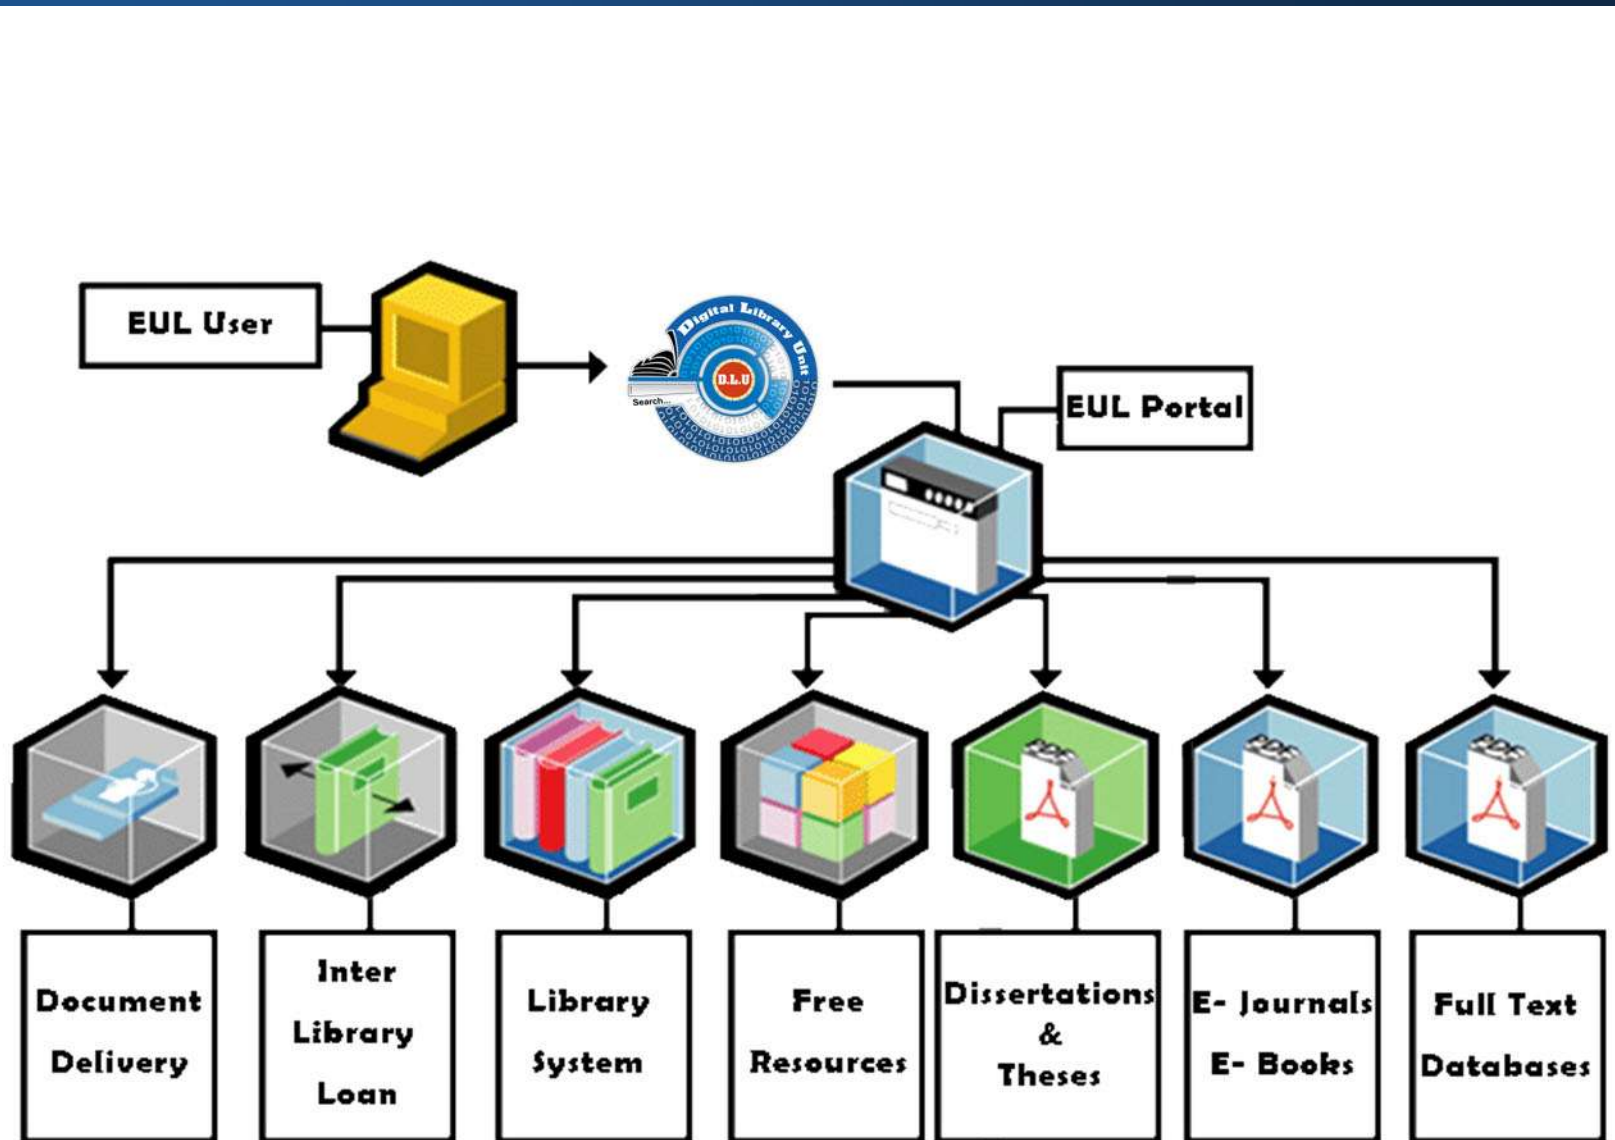

٩- كتابة الإستشهادات أثناء الكتابة العلمية باستخدام الأدوات مثل

Cite while you write

١٠- معالجة خواتم المصادر.

رابعاً اتحاد المكتبات الجامعية
المصرية
Egyptian University Libraries
Consortium

المؤسسات المشاركة

- **يشارك في الاتحاد ٢٣ جامعة مصرية تحت مظلة المجلس الأعلى للجامعات.**
- **مجموعة من الجامعات الأجنبية والخاصة .**
- **مراكز البحوث والمعاهد وغيرها.**

أنشطة وحدة المكتبة الرقمية

مشروع المكتبة الرقمية

- إتاحة البحث في عدد من قواعد البيانات العالمية النصوص الكاملة والمستخلصات.

مشروع ميكنة مكتبات الجامعات المصرية

- بناء فهرس موحد لمصادر المعلومات المتاحة بالمكتبات الجامعية المصرية.

مشروع المستودع الرقمي للرسائل الجامعية

- قاعدة بيانات مستخلصات للرسائل الجامعية التي أجازتها الجامعات المصرية.
- النصوص الكاملة لبعض الرسائل الجامعية التي أجازتها الجامعات المصرية.

مشروع النشر الإلكتروني وتكشيف الدوريات العلمية الصادرة عن الجامعات المصرية

- نشر الدوريات العلمية الصادرة عن الجامعات المصرية بشكل إلكتروني.
- تكشيف مقالات الدوريات الصادرة عن الجامعات المصرية.

مشروع تطوير نظام المستقبل لإدارة المكتبات

- تطوير النظام وفقاً لأحدث المعايير العالمية وأكثرها تلبية لإحتياجات المكتبات الجامعية المصرية.

المكتبة الرقمية للجامعات المصرية

- تشتمل المكتبة الرقمية على أكثر من 15 قاعدة بيانات للمستخلصات والاستشهادات المرجعية والنصوص الكاملة للكتب والدوريات والرسائل الجامعية العالمية.
- تتيح المكتبة الرقمية الوصول إلى أكثر من ١٩ ألف دورية إلكترونية وحوالي ٢٧ ألف كتاب بالإضافة إلى أكثر من مليون رسالة علمية أجازتها الجامعات العالمية في أمريكا وأوروبا.

Egyptian Universities' Libraries Consortia (EULC)

The major goal of the consortia is to provide interactive information services to the Egyptian scholars and students. All the consortia services are electronically available through the EULC portal. Accessing information resources and services through one unified portal would help the Egyptian universities' libraries to eliminate the overlap and duplication of resources and efforts, which would facilitate optimum methods for effectively and efficiently using the allocated resources.

EULC Projects

1. Digital Library Consortia

— The main objective of this project is providing access to the international electronic resources including citations, abstracts and full text database, beside E-journals, books, transactions and engineering standards. All these E-resources are searchable through one unified portal and individually through their interfaces.

2. Egyptian University Libraries Automation

— The objective of this project is automating the Egyptian universities' libraries, (EUL) through building a union catalog for their holdings. The union catalog will facilitate achieving more cooperation and resources sharing among all the members of the EULC.

3. Future Library System Development

— The ICTC in EL-Mansoura and EL-Zagazig Universities have built and implemented a library automation system. The EULC cooperates with the ICTC to enhance and develop the system using an international list of specifications. The project objective is to standardize the system to cope with the international standards of library automated system and to generalize it in the automation of the EULC.

4. The Electronic Theses and Dissertation Database

— The objective of this project is building a national database for the awarded theses and dissertation from the Egyptian universities, besides building a task force for the electronic theses and dissertations metadata standard (ETDMS) which would allow the higher education researchers a full submission of their theses to the system using an international electronic standard format.

Resource of the Month

Evidence-Based Medicine Reviews (EBMR)
A definitive resource for electronic information in the evidence based medicine (EBM) movement that combines 7 of the most trusted EBM resources into a single, fully-searchable database. EBMR helps clinicians practice EBM through a combination of resources that provide: systematic reviews of topics; article reviews; and access to definitive controlled trials. And only with EBMR on Ovid can you get comprehensive integration with MEDLINE.

الكتب الإلكترونية

• تتيح المكتبة الرقمية النصوص الكاملة لعدد كبير من الكتب الإلكترونية في مجالات معرفية مختلفة من خلال مجموعة من ناشرى الكتب الإلكترونية على المستوى العالمى.
وتتنوع الكتب الإلكترونية المتاحة من خلال المكتبة الرقمية ما بين:

١- كتب دراسية تتضمن مجموعة متميزة من المقررات الدراسية التي يتم تدريسها في مجموعة من أكبر الجامعات الأمريكية والأوروبية.

٢- مواد مرجعية تشمل موسوعات، كتب حقائق، سلاسل الكتب.

٣- كتب متخصصة فى مجال العلوم الطبية.

1- Science Direct – 16

2- SPRINGER – 26,186

3- LWW Medical Book collection – 374

EUL Search

Advanced Search

The major goal of the consortia is to provide interactive information services to the Egyptian scholars and students. All the consortia services are electronically available through the EULC portal. Accessing information resources and services through one unified portal would help the Egyptian universities libraries to eliminate the overlap and duplication of resources and efforts, which would facilitate optimum methods for effectively and efficiently using the allocated resources

[1.Digital Library Consortia](#)

The main objective of this project is providing access to the international electronic resources including citations, abstracts and full text database; beside E-journals, books, transactions and engineering standards. All these E-resources are searchable through one unified portal and individually through their interfaces.

[2.Egyptian University Libraries Automation](#)

The objective of this project is automating the Egyptian universities libraries, (EUL) through building a union catalog for their holdings. The union catalog will facilitate achieving more cooperation and resources sharing among all the members of the EULC.

[3.Future Library System Development](#)

The ICTC in EL-Mansoura and EL-Zagazig Universities have built and implemented a library automation system. The EULC cooperates with the ICTC to enhance and develop the system using an international list of specifications. The project objective is to standardize the system to cope with the international standards of library automated system and to generalize it in the automation of the EULC.

[4.The Electronic Theses and Dissertation Database](#)

The objective of this project is building a national database for the awarded theses and dissertation from the Egyptian universities, besides building a task force for the electronic theses and dissertations metadata standard (ETDMS) which would allow the higher education researchers a full submission of their theses to the system using an international electronic standard format

اتحاد مكتبات الجامعات المصرية

إن الهدف الرئيسي من وراء اتحاد مكتبات الجامعات المصرية هو تقديم خدمة مطبوعية تفاعلية تبيد العلماء والباحثين والطلاب المصريين بحيث تكون جميع خدمات اتحاد مكتبات الجامعات المصرية متاحة إلكترونياً من خلال بوابة اتحاد مكتبات الجامعات المصرية ويكون الدخول إلى مصادر المعلومات والخدمات من خلال واجهة استخدام واحدة موحدة تساعد مكتبات الجامعات على التخلص من التناخل والتكرار في المصادر والجهود، مما يسهل تحقيق الطرق المثلى للاستخدام الفعال والكفء باستخدام المصادر المخصصة.

مشاريع اتحاد مكتبات الجامعات المصرية

١. اتحاد المكتبات الرقمية

الهدف الرئيسي من هذا المشروع هو توفير الدخول إلى المصادر الإلكترونية الدولية بما في ذلك الاستشارات المرجعية، والمستخلصات، وقواعد البيانات ذات النص الكامل بالإضافة إلى الدوريات الإلكترونية والكتب والأجزاء والمعايير الهندسية بحيث تكون كل هذه المصادر الإلكترونية قابلة للبحث من خلال بوابة واحدة وفردياً من خلال الواجهة الخاصة بكل مصدر.

٢. أئمة مكتبات الجامعات المصرية

الهدف من هذا المشروع هو أئمة مكتبات الجامعات المصرية من خلال بناء فهرس موحد لمقتنيات تلك المكتبات مما يؤدي إلى تحقيق تعاون أكبر ومشاركة أكثر للمصادر بين كل أعضاء اتحاد مكتبات الجامعات المصرية.

٣. تطوير نظام المستقبل لإدارة المكتبات

لقد قام مركز الاتصالات وتكنولوجيا المعلومات في كل من جامعتي المنصورة والزقازيق ببناء وتنفيذ نظام أئمة المكتبات ويتعاون اتحاد مكتبات الجامعات المصرية مع مركز الاتصالات وتكنولوجيا المعلومات لتحسين وتطوير النظام باستخدام قائمة مواصفات دولية. حيث إن الهدف من هذا المشروع هو توحيد النظام ليتمشى مع النظم الدولية لأئمة المكتبات لتتميم هذا البرنامج في أئمة اتحاد مكتبات الجامعات المصرية.

٤. قاعدة البيانات الإلكترونية للأطروحات والرسائل العلمية

إن الهدف من هذا المشروع هو بناء قاعدة بيانات قومية للأطروحات والرسائل العلمية التي تم منحها من قبل الجامعات المصرية، إضافة إلى بناء مجموعة عمل مخصصة بمعايير واصفات البيانات الإلكترونية للأطروحات والرسائل العلمية، مما يسمح لباحثي التعليم العالي بالتسليم الكامل لأطروحاتهم من خلال النظام باستخدام صيغة معيارية إلكترونية دولية.

Abstract

Objective Because of the pressure for timely, informed decisions in public health and clinical practice and the explosion of information in the scientific literature, research results must be synthesized. Meta-analyses are increasingly used to address this problem, and they often evaluate observational studies. A workshop was held in Atlanta, Ga, in April 1997, to examine the reporting of meta-analyses of observational studies and to make recommendations to aid authors, reviewers, editors, and readers.

Participants Twenty-seven participants were selected by a steering committee, based on expertise in clinical practice, trials, statistics, epidemiology, social sciences, and biomedical editing. Deliberations of the workshop were open to other interested scientists. Funding for this activity was provided by the Centers for Disease Control and Prevention.

Evidence We conducted a systematic review of the published literature on the conduct and reporting of meta-analyses in observational studies using MEDLINE, Educational Research Information Center (ERIC), PsycLIT, and the Current Index to Statistics. We also examined reference lists of the 32 studies retrieved and contacted experts in the field. Participants were assigned to small-group discussions on the subjects of bias, searching and abstracting, heterogeneity, study categorization, and statistical methods.

Consensus Process From the material presented at the workshop, the authors developed a checklist summarizing recommendations for reporting meta-analyses of observational studies. The checklist and supporting evidence were circulated to all conference attendees and additional experts. All suggestions for revisions were addressed.

Conclusions The proposed checklist contains specifications for reporting of meta-analyses of observational studies in epidemiology, including background, search strategy, methods, results, discussion, and conclusion. Use of the checklist should improve the usefulness of meta-analyses for authors, reviewers, editors, readers, and decision makers. An evaluation plan is suggested and research areas are explored.

Citation Mapping Setup for Literature Record

[Citation Mapping Help](#) | [Close Citation Map](#)

Use this screen to create a citation map for the record named in the title bar above (the target record) — you can map forward, backward, or both forward and backward citations for the target record — you can also select the depth or number of generations of citation to map

Select Direction:

☐ Forward Only

☐ Backward Only

☒ Forward and Backward

Choose Forward to see records that cite the target record, choose Backward to see records the target record cites — to see both types, choose Forward and Backward

Select Depth:

1 Generation ▼

Select the number of citation generations you want to see in the map you are creating — the records that directly cite or are directly cited by the target record are the first generation, records citing records that cite the target record and records cited by records cited by the target record are the second generation, etc.

Warning: Selecting 2 Generations may cause the map to time out due to the large numbers of records being retrieved. To improve performance when selecting 2 Generations select, Forward Only or Backward Only not both.

Cancel

Aggregate Impact Factor

Cites in 2010 to articles published in any journal in the Category in:

2009 = 52546	Number of articles published in: 2009 = 15515
2008 = 63294	2008 = 15217
Sum: 115840	Sum: 30732

Calculation: $\frac{\text{Cites to recent articles}}{\text{Number of recent articles}} = \frac{115840}{30732} = 3.769$

Aggregate Immediacy Index

Cites in 2010 to articles published in 2010 = 12348

Number of articles published in 2010 = 15827

Calculation: $\frac{\text{Cites to current articles}}{\text{Number of current articles}} = \frac{12348}{15827} = 0.780$

Aggregate Cited Half-Life

The cited half-life for the category is the median age of its articles cited in the current JCR year. Half of the citations to the category are to articles published within the cited half-life.

Cited Half-Life: 6.3 years

Breakdown of the citations *to the journals in the category* by the cumulative percent of 2010 cites to articles published in the following years:

Cited Year	2010	2009	2008	2007	2006	2005	2004	2003	2002	2001	2000-all
# Cites from 2010	12348	52546	63294	62414	57078	52042	46903	40896	36923	30282	176900
Cumulative %	1.95	10.27	20.29	30.18	39.21	47.45	54.88	61.35	67.20	71.99	100

Cited Half-Life Calculations:

The cited half-life calculation finds the number of publication years from the current JCR year that account for 50% of citations received by journals in the category. Read help for more information on the calculation.

EBSCO Academic Search Complete

Academic Search Complete, designed specifically for academic institutions, is the world's most valuable and comprehensive scholarly, multi-disciplinary full-text database, with more than 5,500 full-text periodicals, including more than 4,600 peer-reviewed journals. In addition to full text, this database offers indexing and abstracts for more than 9,500 journals and a total of nearly 10,000 publications including monographs, reports, conference proceedings, etc. The database features PDF content going back as far as 1865, with the majority of full text titles in native (searchable) PDF format. Searchable cited references are provided for nearly 1,000 journals.
[More about Academic Search Complete](#)

Wilson Humanities Abstracts FullText

The most comprehensive resource available in its field, Humanities Full Text brings you full text plus abstracts and bibliographic indexing of the most noted scholarly sources in the humanities, as well as numerous lesser-known but important specialized magazines. Humanities Abstracts Full Text contains abstracting and indexing coverage for all 500 periodicals included in Humanities Index as well as the full text of over 160 periodicals.
[Humanities abstracts Database Guide](#)

Inis (International Nuclear Information System Database)

Inis contains over 3 million bibliographic records and a unique collection of over 200 000 full-text documents (non-conventional "grey" literature NCL) in 63 languages, including many documents that cannot easily be found anywhere else. INIS represents the world's largest database of scientific and technical literature on a wide range of subjects from nuclear engineering, safeguards and non-proliferation to applications in agriculture, health and industry.
[About Inis](#)

Ovid MEDLINE <1996 to Present>

The world's most comprehensive source of life sciences and biomedical bibliographic information, with nearly eleven million records, provided by the National Library of Medicine.

Novel Urinary Biomarkers in Detecting Acute Kidney Injury, Persistent Renal Impairment, and All-Cause Mortality Following Decongestive Therapy in Acute Decompensated Heart Failure

FREDERIK H. VERBRUGGE, MD,^{1,2} MATTHIAS DUPONT, MD,¹ ZHILI SHAO, MD, PhD,⁴ KEVIN SHRESTHA, MD,⁴ DHSSRAJ SINGH, MD,⁶ MICHAEL FINUCAN, BS,⁴ WILFRIED MULLENS, MD, PhD,^{1,3} AND W.H. WILSON TANG, MD^{4,5}

Genk and Diepenbeek, Belgium; Cleveland, Ohio; and Kansas City, Kansas

ABSTRACT

Background: New urinary biomarkers, such as neutrophil gelatinase-associated lipocalin (NGAL), kidney injury molecule-1 (KIM-1), and interleukin-18 (IL-18), are proposed to allow a more reliable early diagnosis and prognosis of acute kidney injury (AKI) in acute decompensated heart failure (ADHF). Our aim was to compare the predictive value of urinary NGAL, KIM-1, and IL-18 for the occurrence of AKI, persistent renal impairment, and mortality in ADHF.

Methods and Results: Eighty-three patients admitted for ADHF were analyzed. Urinary creatinine (Cr), NGAL, KIM-1, and IL-18 were measured at baseline. Serum Cr was measured daily during the next 4 days and again at outpatient follow-up after 6 months. Mortality data were prospectively collected. Urinary NGAL, KIM-1, and IL-18 were modestly correlated with each other (Spearman $\rho \leq 0.61$) and poorly correlated with estimated glomerular filtration rate (eGFR; Spearman $\rho \leq 0.28$). None predicted AKI, defined as a 25% decrease in eGFR, during the index hospitalization, but urinary IL-18/Cr was the strongest predictor of persistently elevated serum Cr ≥ 0.3 mg/dL after 6 months compared with baseline (area under the receiver operating characteristic curve 0.674; $P = .013$). Urinary IL-18 was also significantly associated with all-cause mortality (hazard ratio 1.48, 95% confidence interval 1.16–1.87; $P = .001$).

Conclusions: Like urinary NGAL, urinary KIM-1 and IL-18 are relatively modest predictors of AKI in ADHF. Among these novel renal biomarkers examined, further investigations regarding the prognostic value of urinary IL-18 are warranted. (*J Cardiac Fail* 2013;19:621–628)

Key Words: Acute decompensated heart failure, acute kidney injury, biomarkers, outcome.

Changes in serum creatinine (Cr) have been the traditional method to monitor renal function during decongestive therapies in patients presenting with acute decompensated heart failure (ADHF). Worsening renal function (WRF), often defined as a 0.3 mg/dL rise in Cr, is a common finding in this context.¹ However, apart from structural damage to the nephron (ie, kidney injury), it might reflect impaired renal hemo-

End-Stage Kidney Disease criteria for acute kidney injury (AKI).² This is probably one of the main reasons why the prognostic impact of WRF, defined as a serum Cr change, differs among subgroups of patients with ADHF.^{3–5}

Recently, new biomarkers have been proposed to improve the diagnosis of AKI and differentiate structural renal damage from prerenal azotemia or hemoconcentration. Neutrophil gelatinase-associated lipocalin (NGAL) is

SEARCH TIPS

SEARCHING

You can perform a search across all Emerald content using either the Search tool at the top of each page or the Advanced Search tool on this page. If you are a registered user of the site, you can save your search criteria in order to re-run the search later. By default, search results are sorted by relevance.

ADVANCED SEARCH

Enter one or more search terms and select the type of content to be searched. For example, to search for articles and chapters with the word "library" in their title, enter the text "library" and select "Content item title". Select any additional filters, such as the Publication Date of "Last 6 months", and click "Search".

COMMUNICATION THEORY

Communication Theory ISSN 1050-3293

ORIGINAL ARTICLE

Toward a Theory of Entertainment Persuasion: Explaining the Persuasive Effects of Entertainment-Education Messages

Emily Moyer-Gusé

School of Communication, The Ohio State University, Columbus, OH 43210-1339

A growing body of research indicates that entertainment-education programming can be an effective way to deliver prosocial and health messages. Some have even speculated that entertainment-education may be more effective than overtly persuasive messages in certain circumstances. Despite empirical advances in this area, more work is needed to understand fully what makes entertainment-education unique from a message-processing standpoint. To this end, the present article has three objectives. First, the article examines the involvement with narrative storylines and characters that is fostered by entertainment programming. This includes a much-needed explication and separation of several related constructs, such as identification, parasocial interaction, similarity, and others. Second, the article reviews and synthesizes existing theories that have addressed entertainment-

5_ Browse functionality by subject collection

The screenshot shows the Springer Link homepage. At the top right, there are links for 'Sign up / Log in', 'English', and 'Academic'. Below these are callouts 1 and 2. A search bar is prominently displayed with the text 'dental col' and a magnifying glass icon, with callout 4 pointing to it. Below the search bar, a dropdown menu shows search results for 'dental composites hardness premise'. To the left of the search bar is a 'Browse by discipline' list with callout 5 pointing to it. The list includes: Biomedical Sciences, Business & Management, Chemistry, Computer Science, Earth Sciences and Geography, Economics, Education & Language, Energy, Engineering, Environmental Sciences, Food Science & Nutrition, Law, Life Sciences, Materials, and Mathematics. In the center, there is a large banner with the text 'Providing researchers with access to millions of scientific documents from journals, books, series, protocols and reference works.' and callout 3 pointing to it. Below the banner are two book covers: 'Apidologie' and 'Biomaterials for Clinical Applications'. To the right of the book covers is a purple box with the text 'New books and journals are available every day.' At the bottom, there is a 'Recent Activity' section with callout 7 pointing to it. The activity section shows 'What's being read within your organisation' and 'In Memoriam: Hansferdinand Linskens (1921-2007)'.

This screenshot shows the search options menu. It includes a search bar with a magnifying glass icon and a settings gear icon. Below the search bar, there are links for 'Advanced Search' and 'Search Help'. At the top right, there are links for 'Sign up / Log in' and 'English'.

6_ Advanced search and help functionality can be accessed by clicking the 'settings wheel'

Related Documents

The screenshot shows a search results interface. At the top, a yellow box with a lock icon and the text 'Include preview-only content' is highlighted with a red box and the number 3. Below this is a 'Refine Your Search' section with two filters: 'Content Type' and 'Discipline'. The 'Content Type' filter is highlighted with a red box and the number 4. It shows a list of content types with their respective counts: Chapter (604), Article (530), Reference Work Entry (32), and Protocol (2). The 'Discipline' filter shows a list of disciplines with their counts: Engineering (255), Environmental Sciences (240), Life Sciences (211), and Chemistry (172). The main search results area shows '9,287 Result(s) for 'aesthetic plastic surgery''. Below this, there are two search results. The first result is a 'Chapter' titled 'Registered Microhardness of human teeth parts and dental filling composites' by Lena Schmitt, C. Lurtz, D. Behrend... in '4th European Conference of the Internation...' (2009). It has a 'Download PDF (864 KB)' link. The second result is an 'Article' titled 'Interactive effects of resin composition and ambient temperature of light curing on the percentage conversion, molar heat of cure and hardness of dental composite resins'. The description for this article states: 'The interactive effects of ambient temperature of cure and resin composition on the extent of cure are evaluated'.

Abstract

4 Solar tents, which are safe, inexpensive, and easy to construct, can be used to inactivate unwanted weed plant propagative materials, onsite. During two field trials in the San Joaquin Valley of California, from Sept 2 to 7, 2010, solar tents produced diurnal temperature maxima within closed sample bags of 63.5–76.7°C. The mean maximum temperatures within the sample bags were 32.9–42.1°C higher than those of ambient air, and temperatures ≥60°C were maintained for 3.2–6.0 h each afternoon during the field trials. Rhizome segments, excavated and excised from a local infestation of the important weed pest *Sorghum halepense* (Johnsongrass), were used to evaluate effects of the treatment on woody plant tissues with vegetative propagation capability. The rhizomes were completely destroyed following confinement within tents for 3 days. Construction useful alternative for inactivating weed propagative materials. Potential uses include destruction of quarantined, propagative materials following regulatory roguing interventions in remote locations, or routine roguing of limited scale areas to remove invasive weeds.

EUL - databases

native (searchable) PDF format. Searchable cited references are provided for nearly 1,000 journals.
[i] - More about Academic Search Complete

Wilson Humanities Abstracts FullText

The most comprehensive resource available in its field, Humanities Full Text brings you full text plus abstracts and bibliographic indexing of the most noted scholarly sources in the humanities, as well as numerous lesser-known but important specialized magazines. Humanities Abstracts Full Text contains abstracting and indexing coverage for all 500 periodicals included in Humanities Index as well as the full text of over 160 periodicals.
[i] - Humanities abstracts Database Guide

Inis (International Nuclear Information System Database)

Inis contains over 3 million bibliographic records and a unique collection of over 200 000 full-text documents (non-conventional "grey" literature NCL) in 63 languages, including many documents that cannot easily be found anywhere else. INIS represents the world's largest database of scientific and technical literature on a wide range of subjects from nuclear engineering, safeguards and non-proliferation to applications in agriculture, health and industry.
[i] - About Inis

Ovid MEDLINE <1996 to Present>

The world's most comprehensive source of life sciences and biomedical bibliographic information, with nearly eleven million records, provided by the National Library of Medicine.
[i] - Ovid Medline Database Guide

Ovid CAB Abstracts 1990-Present

World-renowned CAB Abstracts is the largest professionally-produced database covering international issues in agriculture, forestry, and allied disciplines in the life sciences. The database contains over 4 million records from over 11,000 journals, books, conferences, reports, and other kinds of literature published internationally.
[i] - Ovid Cab Abstracts Database Guide

Ovid CAB Global Health 1973-Present

Global Health is a specialist international public health database for academics, researchers, public health practitioners, NGOs, policy makers, clinicians, healthcare professionals and students. It contains over a million scientific records from 1973 to the present, with over 70,000 records added each year.
[i] -Ovid Global health Database Guide

AGRIS (The international information system for the agricultural sciences and technology)

AGRIS is the international information system for the agricultural sciences and technology. It was created by the Food and Agriculture Organization of the United Nations (FAO) in 1974, to facilitate information exchange and to bring together world literature dealing with all aspects of agriculture to date, 240 national, international and intergovernmental centres participate. The AGRIS repository is continuously updated and currently contains over 2.3 million bibliographic references in the AGRIS AP XML format, from 1975 to date. This data is collected from AGRIS resource centres in over 100 countries worldwide.
[i] -About Agris

Journals@Ovid (Lippincott Williams and Wilkins)

With Journals@Ovid you'll find the best medical literature in the world. Content is updated regularly, according to the frequency on each journal, assuring you of the most up-to-date information available.

1. ☐ Wernicke encephalopathy after bariatric surgery: a systematic review. [Review] [97 refs]

Aasheim ET.

Annals of Surgery. 248(5):714-20, 2008 Nov.

[Journal Article. Research Support, Non-U.S. Gov't. Review]

UI: 18948797

Authors Full Name

Aasheim, Erlend Tuseth.

View Abstract

AB OBJECTIVE: To review the clinical essentials of Wernicke encephalopathy (WE) after bariatric surgery. SUMMARY BACKGROUND DATA: An estimated 205,000 bariatric surgical procedures were performed in the United States in 2007. Such procedures may potentially lead to severe nutritional complications. METHODS: Literature searches were performed in Medline, Embase, and abstract collections. Inclusion criteria were WE after bariatric surgery, diagnosed by the presence of two or more of the following signs: mental status changes, eye movement abnormalities, cerebellar dysfunction, and dietary deficiency. RESULTS: Of 104 reported cases of WE after bariatric surgery, 84 cases were included. Gastric bypass or a restrictive procedure had been performed in 80 cases (95%). Admission to hospital for WE occurred within 6 months of surgery in 79 cases (94%). Frequent vomiting was a risk factor in 76 cases (90%) and had lasted for a median of 21 days at admission. Intravenous glucose administration without thiamine was a risk factor in 15 cases (18%). Brain magnetic resonance imaging identified lesions characteristic of WE in 14 of 30 cases (47%). Incomplete recovery was observed in 41 cases (49%); memory deficits and gait difficulties were frequent sequela. The recent increase in the use of bariatric surgery in the United States was associated with an increase in reported WE cases. CONCLUSIONS: The number of WE cases after bariatric surgery is substantially higher than previously reported. Surgeons, allied health providers, and patients need to be aware of the predisposing factors and symptoms to prevent and optimize the management of this condition. [References: 97]

* Terms and Conditions:

Thomson Reuters determines a reasonable amount of data to download by comparing your download activity against the average annual download rates for all Thomson Reuters clients using the product in question. Thomson Reuters determines an insubstantial portion of downloaded data to mean an amount of data taken from the product which (1) would not have significant commercial value of its own; and (2) would not act as a substitute for access to a Thomson Reuters product for someone who does not have access to the product.

You are not entitled to do anything that would cause a breach of the terms of the agreement between your organization and Thomson Reuters, such as (1) allowing anyone else to use your username/password, (2) downloading excessive amounts of data, (3) providing data to anyone else, other than in licensed, source-acknowledged documents or reports created as part of your normal work, (4) archiving or using downloaded data to create a derivative database or metrics, (5) using the product or any downloaded data to provide services to anyone outside your organization, or (6) using the product in a way that risks damaging, disabling, overburdening or impairing the operation of the product, or any other person's use or enjoyment of the product.

☐ I have read and agree to these terms and conditions.

In order to create and access your EndNote Web Library, you must sign in or register.

Benefits of creating an EndNote Web Library:

- You can add references to your EndNote Web Library directly from Web of Science and other Web of Knowledge products.
- You can organize references in folders for access and use at any time--collections are retained between sessions.
- You can create formatted reference lists in a variety of publishing styles.
- You will be able to access your EndNote Web Library from any computer at the institution.

Processing Records

Please wait while your request is processed.
(Note: Depending on the number of records, this may take a few moments.)

Product: Web of Knowledge

Selected action: Save My EndNote Web Library

Processing 4 records:
4...Done.

- We are contacting your EndNote Web library...
- The records are being sent to your EndNote Web library. They may take a few moments to get there.

Swine influenza virus¹ is common throughout pig populations worldwide. Transmission of the virus from pigs to humans is not common and does not always lead to human influenza, often resulting only in the production of antibodies in the blood. If transmission does cause human influenza, it is called zoonotic swine flu. People with regular exposure to pigs are at increased risk of swine flu infection. The meat of an infected animal poses no risk of infection when properly cooked.

During the mid-20th century, identification of the virus led to the diagnosis of transmission to humans. Since 1968, several strains of swine flu have been identified. These strains of swine flu rarely pass from person to person. They are similar to those of influenza and of influenza-like illness in general, namely chills, fever, sore throat, muscle pains, severe headache, coughing, weakness and general discomfort.

The reference is automatically cited with the right style and the right count
