*** Aim of the activities book**

To provide one source of evidence for the assessment committee that you attained the desired level of competency required to gain the award.

In this book you will document all clinical, academic and other experiences and skills you attained during your training.

Sections of the book

For each module / course / rotation

You should fill the following sections:-

1- Clinical case log

1- You will first find list with all required cases in the concerned module and the minimum number of cases you must get exposed to and level of participation you should achieve for each type of cases.

2- You should record all clinical cases in the module and each case should be signed by you trainer.

2- Clinical case presentation log

Record the cases related to the module that you have presented in a seminar of the activity.

3- Procedures / operations log

- 1- You will find a list for required procedure, diagnostic – therapeutic operations and level of desired performance you should achieve at the end of training.
- 2- You will find empty tables to write down the procedure, you level of participation and date and signature of supervisor.

4- Rotation / attendance proof

You should have evidence of achievement the required training hours within each module.

For the whole program fill the following sections

1- Academic activities

- A- Document all academic activities e.g. lecture, journal clubs, workshops, conference, services attended. This documentation should include the level of participation " attendance, preparation, presentation,....."

2- Academic achievements

A- Document all outcomes you achieved in the field of:-

- Audit participation
- Research "clinical trial" participation.
- Evidence- based medicine "generation of guidelines" protocols
-

3- Formative assessment log

This document all types of formative assessment attended e.g.:-

- Mini clinical examination
- Quises

Program aims

1/1 To enable candidates to keep with national standards of patients care by teaching high level of clinical skills, bedside care skills, in addition to update medical knowledge as well as clinical experience and competence in the area of gastroenterology, Cardiovascular, rheumatology, endocrine, hematology, nephrology, chest, neurology and geriatric medicine in addition to critical and intermediate care and units , besides dealing with emergent cases in emergency unit and enabling the candidates of making appropriate referrals to a sub-specialist.

1/2. Provide candidates with fundamental knowledge critical care unit as regards; dealing with critically ill patients, ICU equipments, techniques, indications, contraindications and training skills of different critical care techniques.

1/3 To introduce candidates to the basics of scientific medical research.

1.4. Enable the candidates to start professional careers as specialists in Egypt but recognized abroad.

1.5 Enabling the candidates to understand and get the best of published scientific research and do their own.

Program Structure

Program Time Table

Duration of program 3 years maximally 5 years divided into

○ Part 1: (One year)

Program-related basic science courses and ILOs

Students are allowed to sit the exams of these courses after 12 months from applying to the MSc degree.

One elective course can be set during either the 1st or 2nd parts.

○ Thesis

For the M Sc thesis;

MSc thesis subject should be officially registered within 6 months from application to the MSc degree,

Discussion and acceptance of the thesis could be set after 12 months from registering the MSc subject; It should be discussed and accepted before passing the second part of examination

○ Part 2 (2 years)

Program –related speciality courses and ILOs

Students are not allowed to sit the exams of these courses before 3 years from applying to the MSc degree.

First Part

Academic activities of basic sciences

Practice with academic and clinical departments during year 1

- Course 1: Pharmacology
- Course 2: Physiology
- Course 3: Pathology & Clinical pathology
- Course 4: Microbiology& Clinical Biochemistry
- Course 5: Basics of Internal medicine
- Course 6: Anaesthesia

Course 1

Pharmacology

Requirements

- Credit points: 1 credit point.
- Minimal rate of attendance 80% for lectures

Topics as follow:-

Name of the course	Credit points	Responsible department	Attendance	Percentage of Achieved points
Pharmacology	1CPS	Pharmacology	Attendance 10 hours	100%
	0.2		2 hours General pharmacology Antihypertensive Diuretics	20%
	0.2		2 hours Treatment of heart failure, Ischaemic heart diseases Inotropics Antiarrhythmics	20%
	0.1		1 hours Antiplatelets Anticoagulants Thrombolytics	10%
	0.2		2 hours Insulin and Hypoglycemics Treatment of hypo and hyperthyroidism Drugs of bronchial asthma and status asthmaticus	20%
	0.2		2 hours NSAIDs -Corticosteroids DMARD- Gout, anti-epileptics	20%
	0.1		1 hours Antibiotics -Antiviral – Antacids-anaesthetics	10%
Student signature			Principle coordinator signature	Head of the department signature

Pharmacology course lectures

Master Degree

Course 2

PHYSIOLOGY

Requirements

- Credit points: 2 credit point.
- Minimal rate of attendance 80% for lectures

Topics as follow:-

Name of the course	Credit points	Responsible department	Attendance	Percentage of Achieved points
Physiology	Total 2CPS	Physiology	Attendance of 20 hours	100%
	0.6		6 hours A-Physiologic Principles of Cardiovascular system: 1- The innervations of the heart 2- The regulation of the heart rate. 3- The arterial blood pressure and its regulation. 4- Phases of action potential 5- Pulmonary and coronary circulation. 6- Haemorrhage and its compensatory reaction. 7- ECG and its clinical significant.	30%
	0.4		4hours B-Endocrine and metabolism 1- Regulation of blood glucose 2- Physiology of thyroid gland 3-Physiology of adrenal gland 4-Calciumhomeostasis 5-Regulation of body temperature:	20%
	0.4		4 hours C-GIT: 1-Gastrointestinal Hormones gut and pancreas D-Respiratory System: 1- Know the regulation of normal respiration and physiology of respiration. 2- Gas transport in blood (oxygen dissociation curve and CO2 curve) 3- Blood gases	20%
	0.6		6 hours E-CNS 1- Describe the structure and functions of the ANS 2- Know its higher centers. Pain F-Nephrology 1- Acid base balance (mechanisms and abnormalities) 2- Urine formation 3- Hormones of the kidney	30%
Student signature			Principle coordinator Signature	Head of the department signature

Physiology lectures

Master Degree

COURSE 3 UNIT 1

PATHOLOGY

Requirements

- Credit points: 1.5 credit point.
- Minimal rate of attendance 80% for lectures

Topics as follow:-

Name of the course	Credit points	Responsible department	Attendance	Percentage of Achieved points
Pathology	1.5 CPS	Pathology	Attendance of 15 hours	100%
	0.5		5 hour a-Pathologic Details of Cardiovascular System: - Heart failure -Hypertension -Atherosclerosis -Cardiomyopathy -Ischemic heart disease	33.34%
	0.3		3 hour B. Gastrointestinal system: -Inflammatory bowel diseases peptic ulcer -Malabsorption	20%
	0.4		4 hour C-Respiratory system -Pneumonia -Respiratory failure -Pulmonary embolism	26.66%
	0.3		3 hour D-General Pathology of: -Thrombosis and embolism - Infections -circulatory disturbances.	20%
Student signature			Principle coordinator Signature	Head of the department signature

Pathology lectures

[illegible]

Course 3 Unit 2

Clinical pathology

Requirements

- Credit points: 1.5credit point.
- Minimal rate of attendance 80% for lectures
- Topics as follow:-

Name of the course	Credit points	Responsible department	Attendance	Percentage of Achieved points
Clinical pathology	1.5 CPS	Clinical pathology	15 hours	100%
	0.3		3 hours Blood picture Bone marrow Blood culture	20%
	0.3		3 hours Kidney function tests Liver function tests	20%
	0.3		3 hours Urine analysis and Proteinuria Cerebrospinal fluid Immunologic tests	20%
	0.3		3 hours Electrolytes (Sodium, potassium, and calcium) Cardiac markers Blood glucose assessment tests	20%
	0.3		3 hours Hepatitis markers Plasma proteins hemolysis	20%
Student signature			Principle coordinator Signature	Head of the department signature

Clinical pathology lectures

Master Degree

Course 4 unit 1

Microbiology

Requirements

- Credit points: 1 credit point.
- Minimal rate of attendance 80% for lectures

Topics as follow:-

Name of the course	Credit points	Responsible department	Attendance	Percentage of Achieved points
Microbiology	1 CP	Microbiology	Attendance of 10 hours	100%
	0.2		2 hours -Infectious agents (Gm +ve, Gm -ve, T.B, Zoonosis, typhoid, brucellosis, candidiasis)	20%
	0.2		2 hours -Antibiotics and antimicrobial.	20%
	0.1		1 hour HIV infection	10%
	0.1		1 hour Hospital acquired infection	10%
	0.1		1 hour Community acquired infection	10%
	0.1		1 hours -Sterilization and disinfection	10%
	0.2		2 hour Hypersensitivity reactions Food poisoning	20%
Student signature			Principle coordinator signature	Head of the department signature

(Microbiology Lectures)

[illegible]

Course 4

Unit 2

Biochemistry

Requirements

Credit points: 1credit point.

Minimal rate of attendance 80% for lectures

Topics as follow

Name of the course	Credit points	Responsible department	Attendance	Percentage of Achieved points
Biochemistry	1 CP	Biochemistry	Attendance of 10 hours	100%
	0.2		2 hours Insulin, growth hormone	20%
	0.2		2 hours Protein metabolism	20%
	0.2		2 hours Carbohydrate metabolism	20%
	0.2		2 hours Lipid metabolism	20%
	0.2		2 hours Cardiac enzymes	20%
Student signature			Principle coordinator signature	Head of the department signature

(Biochemistry Lectures)

[illegible]

Course 5 Basics of Internal Medicine

Requirements

- Credit points: 5 credit point for didactic (lectures, seminars, tutorial) (in the first 6 months of the first year
- 8 point for training (8 weeks training in out patients clinic and inpatient department (group1, 2, 3)
 - + Minimal rate of attendance 80% of didactic and training

كلية الطب

Faculty of Medicine

Name of the course	Credit points	Responsible department	Attendance	Percentage of Achieved points
Basics of internal medicine	5 CPS	Internal medicine department	50 hours attendance or 25 hours active participation (lectures, seminars, tutorials)	100%
	1		10 hours -Basis of Clinical examination in internal medicine -Clinical examination of critically ill patients	20%
	1		10 hours -Recognition and assessment of the critically ill patients Fluid therapy Poisoning	20%
	1		10hours -Presenting problem in critically ill patients:- <ul style="list-style-type: none"> • Circulatory failure, shock • Respiratory failure, ARDS • Acute kidney injury • Sepsis, DIC 	20%
	1		10 hours Etiology, clinical picture, diagnosis and management of the common GIT diseases (LC, ascitis, jaundice, hepatic malignancy)	20%
	1		10 hours Principles of infectious diseases Fever and PUO	20%
Student Signature			Principle Coordinator Signature	Head of the department signature

Second part

Course 7: Advanced Internal Medicine

Requirements

- **Credit points:** 10 credit point for didactic during year 2 and 40 credit point for training during year 2 and 3 & In addition to 6 CPS during year 1 as mentioned above.

Minimal rate of attendance 80% of didactic and training

Topics:

The candidate spend the first 10 months of the second year in different units of internal medicine department as follow:

- Cardiology unit.....2month
- Gastroenterology.....2 month
- Nephrology.....2month
- Hematology unit 1month
- Endocrinology.....1.5 month
- Neurology.....3 weeks In neurology department
- Chest.....3 weeks in chest department

Course 8: Critical care Medicine

Requirements:

- Credit points: 14 credit point for didactic during year 3 and 56 credit points for training during year 2 and 3 & In addition to 8 CPS during year 1 as mentioned above. Minimal rate of attendance 80% of didactic and training

Topics:

The candidate spend the last 2month of the 2nd year and the 3rd year in different critical care units of internal medicine department as follow:

- Cardiology critical care unit.....10 weeks.
- Gastroenterology critical care unit.....10 weeks.
- Nephrology critical care unit.....10 weeks.
- Haematology critical care unit 8 weeks.
- Endocrinology critical care unit..... 8 weeks.
- Neurology critical care unit.....5 weeks In Neurology department.
- Chest critical care unit5 weeks in Chest department.

General skills	could not judge (0)	strongly disagree(1)	(3) (2)	(5) (4)	(6)	strongly agree (7)
Perform practice-based improvement activities using a systematic methodology (share in audits and risk management activities and use logbooks).						
Appraises evidence from scientific studies.						
Conduct epidemiological studies and surveys.						
Perform data management including data entry and analysis and using information technology to manage information, access on-line medical information; and support their own education.						

General skills	could not judge (0)	strongly disagree(1)	(3) (2)	(5) (4)	(6)	strongly agree (7)
Facilitate learning of students other health care professionals including their evaluation and assessment.						
Maintain therapeutic and ethically sound relationship with patients.						
Elicit information using effective nonverbal, explanatory, questioning, and writing skills.						
Provide information using effective nonverbal, explanatory, questioning, and writing skills.						
Work effectively with others as a member of a health care team or other professional group.						
Demonstrate respect, compassion, and integrity; a responsiveness to the needs of patients and society.						
Demonstrate a commitment to ethical principles including provision or withholding of clinical care, confidentiality of patient information, informed consent, business practices.						

General skills	could not judge (0)	strongly disagree(1)	(3) (2)	(5) (4)	(6)	strongly agree (7)
Demonstrate sensitivity and responsiveness to patients' culture, age, gender, and disabilities.						
Work effectively in relevant health care delivery settings and systems including good administrative and time management						
Practice cost-effective health care and resource allocation that does not compromise quality of care.						
Assist patients in dealing with system complexities.						

Elective Course 1

Requirements

● **Credit points:** 2 credit point.

- Minimal rate of attendance 80% of lectures and 80% of training
