CLINICAL EXPERIENCE

Assiut University Hospital is the biggest hospital in Upper Egypt and the third biggest one in the whole country. It is 2600 bedded hospital. The department of Neurology and Psychiatry consists of 125 beds including Neurology Unit (38 beds), Psychiatry Unit (77 beds) [in-patients=42, emergency Psychiatry=20, Addiction section=10], Stroke Unit (10 beds) and Neurophysiology Unit containing (conventional and digital EEG, EMG, Evoked potential and Transcranial magnetic stimulation or TMS). During my posts in this department, I have worked as a house officer (2 months), resident (3 years), lecturer (7 years), assistant professor (5 years) and associate professor (now). I handled confidently all tasks in the outpatient clinic, hospital-ward duties, and management of emergency cases. Also, I participated actively in all scientific activities including seminars, conferences and workshops.
