Oct, 2015	Doctorate Degree in General Surgery. Assiut University, Egypt
Nov, 2012	Educational Commission For Foreign Medical Graduates (ECFMG) Certification, USA
Nov, 2008	Master Degree (M.Sc.) in General Surgery <i>Assiut University, Egypt</i>
Sep, 2003	Bachelor Degree (M.B.B.Ch) of Medicine and Surgery <i>Assiut University, Egypt</i>

POSITIONS HELD

Oct, 2015- till Now	Lecturer and Consultant of General and HBP Surgery Assiut University Hospital, Assiut, Egypt
July, 2013 – Oct, 2015	Specialist of HBP and Liver transplantation Al-Rajhy Liver Hospital, Assiut University, Egypt
Nov, 2012 – June, 2013	Research Fellow <i>Cleveland Clinic Transplant center, Cleveland, OH, USA</i>
July, 2011 – Oct, 2012	Research Fellow <i>Starzl Transplant Institute, University of Pittsburgh Medical Center (UPMC), Pittsburgh, PA, USA</i>
March, 2008 – June, 2011	<ul style="list-style-type: none"> • Assistant Lecturer of General Surgery <i>Faculty of Medicine, Assiut University, Egypt</i> • Specialist of General Surgery <i>Assiut University Hospital, Egypt</i>

- March, 2005 – Feb, 2008 Resident of General Surgery
 Assiut University Hospitals, Egypt
- March, 2004 – Feb, 2005 *House Officer*
 Assiut University Hospitals, Egypt

CLINICAL EXPERIENCE

I have been practicing General Surgery for since 2005 at Assiut University Hospitals, which is the largest hospital in Southern Egypt that serves about 20 million people. Through my career path I gained a substantial experience in many general surgical areas.

During my General Surgery Residency Program, I received a comprehensive training in the following areas:

- Basic surgical maneuvers
- In- and out-patient clinical management
- GIT endoscopies
- Management of trauma patients
- Emergency surgery including:
 - Intestinal obstruction
 - Acute abdomen

Following my residency, I continued as a Specialist of General Surgery at the same hospital where my clinical training was focused on the following areas:

- Colorectal surgery: including anterior resection, abdominoperineal resection, and various types of colectomies.
- Endocrine surgery: thyroidectomies and parathyroidectomy.
- Head and neck surgery: parotid sialadenectomy, submandibular sialadenectomy, thyroglossal cyst excision, and excision of other neck swellings.
- Breast surgery: biopsies, conservative breast surgery, axillary dissection, Patey's operation and its modifications.
- Anorectal surgery: perianal fistula (low and high), pilonidal sinus, anal stenosis, hemorrhoids, anal fissure.
- Oncology Surgery: colorectal cancer, ampullary and peri-ampullary tumors, breast cancer, thyroid cancer, salivary gland tumors.
- Groin and ventral hernia operations
- Other surgeries: splenectomy, mesenteric cyst and intestinal resection anastomosis.
- Laparoscopic cholecystectomy
- Diagnostic laparoscopy
- Laparoscopic ligation of varicocele
- Adrenalectomy

My main interest, however, was centered on the hepatobiliary pancreatic (HBP) surgery and liver transplantation and, therefore, I was especially keen to participate in the following surgeries:

- Living donor liver transplantation (50 cases) as first assistant.
- Cadaveric organ procurement (30 cases) as assistant surgeon
- All types of liver resections (60 cases) as primary surgeon
- Pancreatic surgery (45 cases) as primary surgeon
- Complicated biliary surgery

COURSES AND CONFERENCES ATTENDED

Dec, 2015	Basic Life Support (BLS) for Healthcare Providers Course Accredited by American Heart Association (AHA)
Jan, 2010 – June, 2010	Clinical (Hands On) Training Course in Liver Transplantation and HBP Surgery (6 months) <i>GIT Surgical Center, Mansoura University, Egypt</i>

TEACHING EXPERIENCE

- Teaching the academic and the clinical principals of General Surgery to the under- and post-graduate medical students. Assiut University Hospital, Egypt
- Conducting clinical training sessions in General Surgery for the house officers, residents, and specializing physicians. Assiut University Hospital, Egypt

RESEARCH EXPERIENCE

- **Research Fellow** *July, 2011 – June, 2013*

Institution	Starzl Transplant Institute, UPMC, PA, USA Cleveland Clinic Foundation (CCF), Ohio, USA
Area of Interest	Liver transplantation for hepatocellular carcinoma
- **Master Thesis** *March, 2005 – November, 2008*

Institution	Department of General Surgery, Faculty of Medicine, Assiut University, Egypt.
Title	Neonatal intestinal obstruction.

PUBLICATIONS

- **Ramy Hassan** and Mohie Elshafie. Risk factors predicting HCC recurrence following Liver transplantation, Assiut Medical Journal, 2015
- **Ramy Hassan**, Farghaly AA, Mostafa MM. Overview of Neonatal Intestinal Obstruction, Assiut Medical Journal, 2008.

CAREER PLANS

My main interest is focused on liver transplantation and hepatobiliary surgery. I am also particularly interested in clinical research activities related to hepatocellular carcinoma patients.
