

A computer monitor showing a news article from a website. The title of the article is "مصر تشدد الرقابة على المصانع لتأمينها ضد الحرائق" (Egypt strengthens supervision over factories to ensure their safety against fires). Below the title are two photographs: one showing firefighters in full protective gear fighting a large fire, and another showing several fire trucks and firefighters at a scene of a fire. At the bottom of the screen, there is a caption in Arabic: "حرائق المصانع التي اندلعت دفعت معاي الوزارة المختصة رشيد إلى وضع خطة عاجلة لبحث إسباب تكرار هذه الحرائق. ووضع الوسائل والضمانات التي تجتنب على هذه النزرة القومية!" (The fires that broke out prompted the relevant ministry to take immediate action to develop a plan to investigate the causes of these fires and put in place measures to prevent such national disasters!).
