WELCOME NOTE

Faculty of Pharmacy, Assiut University takes a great pride in welcoming you to the 13th International Pharmaceutical Sciences Conference. Our series of conferences has the tradition to explore innovative ideas in different aspects of pharmaceutical sciences. This year's conference theme (Pharmaceutical Sciences between Research and application) reflects our focus on the significance of the impact of pharmaceutical research on development of society. We are looking forward to your valuable participation in our upcoming conference.

SCOPE

The main aim of the conference is to create distinguished links among the researchers in different pharmaceutical sciences areas, academics, undergraduate students, industrial pharmaceutical executives, investors and marketing people. Keynotes and planetary lecturers will be included in the conference in addition to oral as well as poster presentations.

MAIN TOPICS

- Challenges in Novel Drug Delivery Systems.
- Nanotechnology.
- Innovations in Pharmaceutical Industries.
- New Aspects of Natural Products in Drug Discovery.
- Computer-Aided Drug Design.
- Current Trends in Drug Synthesis.
- Pharmaceutical Biotechnology.
- Bioanalytical Chemistry.
- Pharmacoeconomics.
- Evidence-Based Pharmaceutical Care.
- Advances in Pharmacotherapy
