

Welcome to the Faculty of Pharmacy

The faculty of pharmacy, Assiut University is dedicated to providing, establishing, and disseminating the correct pharmaceutical concepts and principles between the faculty graduates in order to enable them to carry out excellent pharmaceutical and health services in the national and regional area. Consequently, this shall contribute to the development and improvement of the health quality of the citizens residing in these areas. The faculty is also fostering an understanding of the need for life-long pharmaceutical learning. On the other hand, the Faculty is supporting pharmaceutical as well as medical research projects which are in the line with the national goals. The pharmacy program encourages the positive interaction with the surrounding environment and the fruitful cooperation between the pharmacy graduates and other parts of the community.

Did you know?

- 1 The faculty of Pharmacy offers a lifelong learning opportunities responsive to the needs of students, graduates, staff and community. Moreover, it provides the students with the ability to participate in the education programs of other Egyptian universities including Al-Azhar University (Assiut branch) and Al-Minia University.
- 2 The Faculty of Pharmacy obtained QAAP project in 2004. Then obtained CIQAP project in 5/3/2008 and has finished the requirements of accreditation in 13/10/2010.
- 3 The faculty has got the certification of ISO 9001/2008 in 18/11/2009, in the following scope: Provision of educational services in pharmaceutical science at undergraduate and postgraduate levels.

Dean's word

My dear students I wish you all the best in your study in your honorable faculty, which has completed 50 years since its foundation in 1960. The first graduated batch was in the academic year 1965/1966, their number was 29 pharmacists. Our faculty continues its mission in education, and now the number of pharmacists reached 11634. The faculty has got the ISO 9001/2008 certificate and it was the first faculty to get this certificate in Upper Egypt. Our faculty has finished the requirements of accreditation according to the CIQAP project. I wish you all the best in your education and I am sure that you will be beneficial to your country.

Prof./ Mahmoud Mohamed Mohamed Sheha
Dean of Faculty of Pharmacy

Brief history about the faculty

Faculty of Pharmacy was established in 1960, as pharmaceutical departments follow the faculty of medicine (Pharmaceutical chemistry, Pharmacognosy & pharmaceuticals), then became independent (Faculty of Pharmacy) since 1967. It is considered the third one after Cairo and Alexandria pharmacy faculties. It is the fifth faculty in Assiut University. The first group awarded the degree of B. Sc. in pharmaceutical sciences on 1965/1966 (29 graduates). Faculty of Pharmacy has awarded the degree of B. Sc. in pharmaceutical sciences to 11634 graduates through the period from 1965 till now. The study in Clinical Pharmacy program began from 2006/2007 and total number of reached students 205. The Faculty consists of three new buildings which are carefully designed with modern facilities for both the students and the faculty members

Undergraduate Students

How to apply in the university?

Come and see what does the faculty of Pharmacy offers during AUN's open day or contact the faculty to arrange a visit. Undergraduate admission differs depending on whether you are a high school student or whether you want to transfer from another university to AUN.

It is widely acknowledged that the transition from school to University is significant - the quantity of work, the pace at which material is covered and the conceptual complexity are all greater than students have experienced at school. Our experience has shown that many first-year students can overcome the difficult transition from high school to University by receiving a reduced learning load in their first year and by spreading the curriculum over a four year Period. Visit the Faculty of Pharmacy at AUN website to know more about the admission.

The Ten Departments

- Department of Pharmaceutics
- Department of Pharmacognosy
- Department of Medicinal Chemistry
- Department of Pharmaceutical Organic Chemistry
- Department of Pharmaceutical Analytical Chemistry
- Department of Industrial Pharmacy
- Department of Clinical Pharmacy
- Department of Microbiology & Immunology
- Department of Biochemistry
- Department of Pharmacology

Research

Faculty of Pharmacy Research Plan 2015-2019 Main research activities:

The active constituents Isolation, identification, and biological study from plants cultivated and growing in Egypt.

- 1- Quality control of herbs and herbal extracts in pharmaceutical dosage forms.
- 2- Microbial biotransformation of major secondary metabolites in Egyptian medicinal plants into more active ones.
- 3- Biotransformation of major secondary metabolites in Egyptian medicinal plants into more active ones by cell and tissue culture techniques.
- 4- Identification and evaluation of volatile contents in Egyptian aromatic plants.
